

Dear Elected Officials

I Respectfully urge the FCC to reject the NAB's petition 04-160 and I believe you should support XM's ability to provide the kind of programming that supports competition and the American Way of Life and prosperity.

I personally have no use for the feature of weather and traffic because I do not live in an area where it is of use. The NAB wants to control content for the for profit. As I am sure XM does - let the market decide who does the best job. Please don't make us decide in the ballot booth - let me do it with my cash instead.
